Pavers: Molina 80mm, Luna

Your ONE Trusted Source

Architecture plays a very important role in the evolution of society. I'm proud to say our company is constantly evolving. Brampton Brick Limited, collectively, Brampton Brick and Oaks Landscape Products (Oaks) brands; has forged a reputation as an integrated masonry and landscape products manufacturer.

To be a single source for quality, durability and long-lasting style, we focus on developing products that work well together. We take into consideration the colours, textures, sizes and shapes that have a significant impact on how space is perceived. Our story began in 1871 when Packham Brick Works opened on the east side of Brampton, Ontario to produce pressed clay bricks for the local market. Fast-forward 151 years, and we've expanded across Central and Eastern Canada, into the Midwest, Northeast and South US and broadened our product lines from our humble clay beginnings to include concrete masonry and landscape products.

It's the trust our customers place in us that keeps us focused on our goal; to lead the way in innovation, affordability and lifetime satisfaction. We are devoted to engineering masonry and landscaping materials that stimulate an instant response. When you see homes, driveways, backyard living spaces, commercial buildings or beautifully landscaped public spaces; you see Brampton Brick products.

When you purchase Oaks Landscape Products and Brampton Brick masonry products, you make an investment in longevity, in stunning aesthetics and in us. That's an investment that we take seriously: Our legacy runs deeper than brick, and we're motivated to strive to do more, to do better, to evolve along with the needs of our clients and industry trends. From our state-of-the-art production facilities, to quality control, distribution and customer service, we ensure our products are made to last. Our products have your dream spaces covered both vertically and horizontally, from curbside to poolside.

Thank you for making us your **ONE Trusted Source**.

Jeffrey G. Kerbel,
President and CEO,
Brampton Brick Limited

Clay Brick: Royal Gray
Stone Masonry: Contempo, Dover
Pavers: Eterna, Luna & Cloudburst

masonry collections

Discover new inspiration through our distinguished collections, where you'll find a selection of recommended products, carefully curated into the best possible product arrangements based on our 5 design axes. Choose products from the same collection for a unified look, or mix and match by combining products across different collections for design themes and accents based on your own unique style and preferences.

The Nueva® Collection

Modern design calls for clean lines and a well-coordinated colour palette. The Nueva Collection of masonry products is the next generation of sleek, low-profile design. This diverse combination of contemporary products offers flush finishes and smooth faces for any modern-looking project.

In this Collection:

- Architectural Series
- Bonneville
- Contemporary Series
- Contempo
- Finesse
- Origin Series
- Profile Series

The Rialto Collection

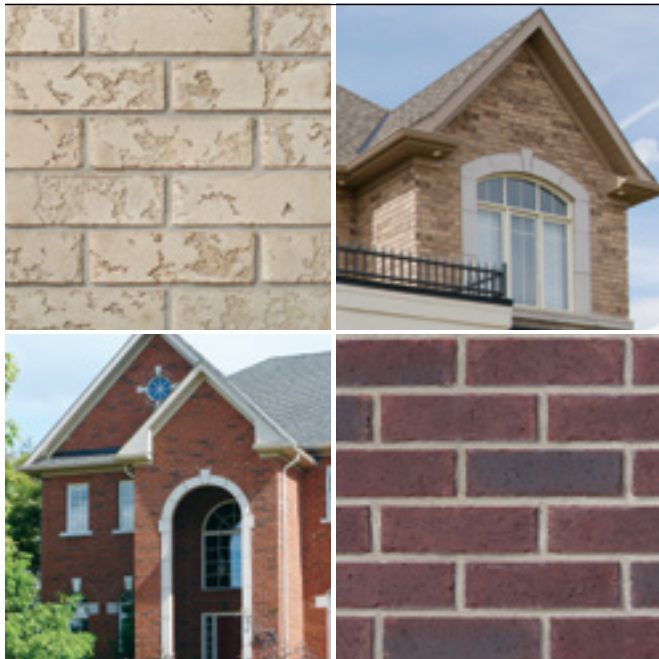

Defined by a hand-chiseled appearance and rich colour blends, the Rialto Collection brings together a range of products that confidently merge exquisite form and durable function. Designed to coordinate perfectly with a range of our other brick, stone and landscape products, this collection is as versatile as it is enduring.

In this Collection:

- Artiste 2
- Granada
- Vivace

THE 5 axes

The Legacy Collection

Explore a handful of our most established products. The Legacy Collection features natural shades and diverse colour palettes. Combine these products to give your project the memorable charm you have been searching for.

In this Collection:

Crossroads Series
Legacy Series
Origin Series

All of our well-integrated product collections are built around different sets of design characteristics, yet revolve around the following five common axes:

① Simplicity

Whether you are a homeowner, a designer or a contractor, our product collections make it simple to design, quote and install your most beautiful project vision, every time.

② Continuity

Every successful home plan pivots around continuity. The unity between form and function, front and back yards, between horizontal and vertical surfaces, and even from masonry to landscape is what truly pulls an outdoor design theme together.

③ Harmony

The affinity of colours, textures, surface finishes, product sizes and scale also contribute to that sense of unity and continuity. We've carefully developed a colour palette and product design theme perfectly harmonized to bring peace of mind, knowing that all the elements of your plan will fit together.

④ Unity

Our clay brick and stone products are truly stand-out solo performers, but are at their best when they are used together in unison, and well complimented by our Oaks Landscape Products.

⑤ Modularity

The sizes and scale of our products were developed for mixing and matching different products within each collection for a completely coordinated home design package.

Look to our Oaks Landscape Products brand for pavers, wall blocks and more for your perfectly coordinated setting.

Legacy Collection

DIGNIFIED & GRAND

Design at *play*.

Remember that feeling when you first fell in love with your home? Oh, the possibilities that lay ahead! We want you to relive that feeling, and have fun as you play with colour, texture, scale and shapes to create your dream home.

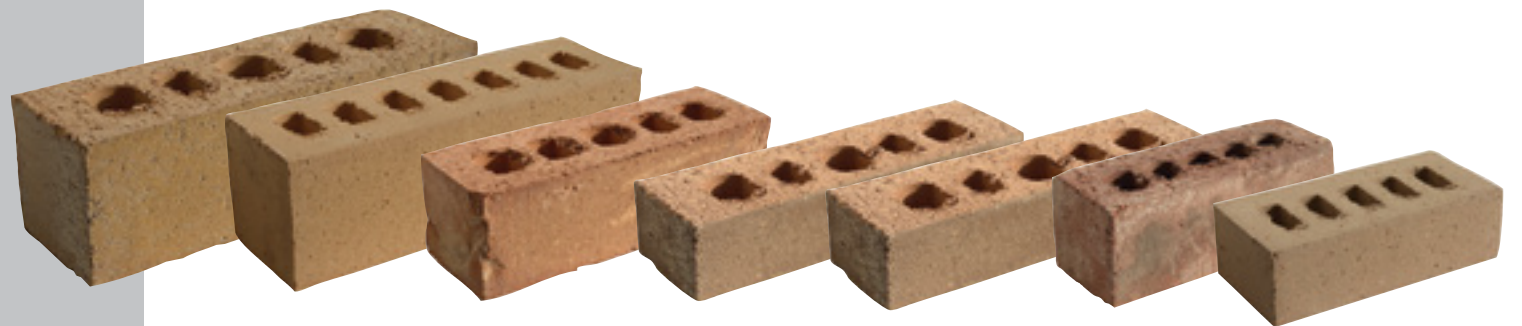

scale & texture

When choosing brick and stone for your home's exterior, consider what styles you're drawn to, your setting, and the overall look and feel you want to achieve.

No matter what your goal is, the colours, textures, sizes, shapes, and patterns in our product collections give you the freedom to explore based on your own personal taste. Enjoy, and above all, have fun.

Scale

Our stone products are developed with sizes to suit today's design ideals. We've bundled sizes for each stone product into pleasing combinations to allow for creativity and versatility in design and on the job site.

32" Sills

Brampton Brick masonry products are developed to work together in both colour and texture. When choosing your material, consider the effect of texture on the overall appearance of the structure. In the following pages, we have compiled several combinations designed to inspire your creativity, while considering the multitude of colour and texture options available.

combining products

With our well-coordinated colours and choice of textures, you can take your dream home to a whole new level.

Our versatile product packaging and scale gives you the freedom to mix and match beautiful options for a look you can truly call your own.

Although we go to great lengths to ensure that the product and colour representations shown in our product guides and on our website are as accurate as possible, there are always variations in printing processes and monitors that will affect the outcome. Colour tones of the delivered product can also vary from the representations, between separately manufactured product sizes, or even between runs of the same product, especially with monochromatic (single solid) colours. This is due to variations in the raw materials and the manufacturing process itself, and is not a sign of defective product. Always select from an actual, current product sample.

Choosing a Palette

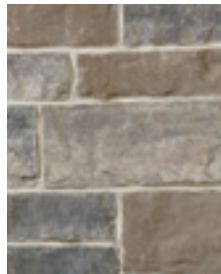

Warm Palettes

Containing red, orange, pink, brown, buff, tan and taupe hues, warm palettes often are attributed to earth tones. Choose warm palettes to create a welcoming environment that compliments colours found in nature.

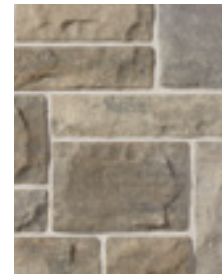

design idea!

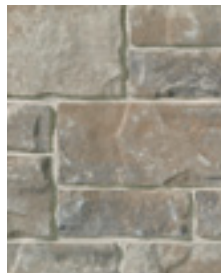

Choose warm-toned brick colours to help pull out the warm and light tones in our blended colour stone products!

Brick: Contemporary Series, Siena Matt
Stone Masonry: Vivace, Siena

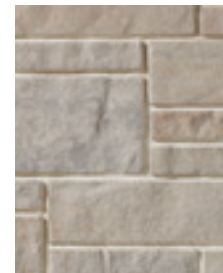

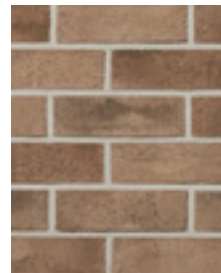

Brick: Contemporary Series, Manilla Matt

Brick: Contemporary Series, Regency Brown
Stone Masonry: Bonneville, Sandbar

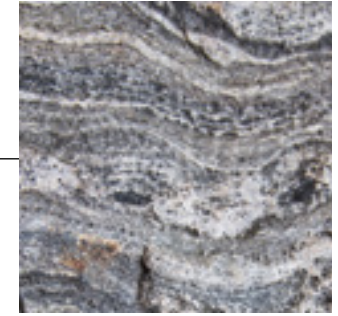

Brick: Legacy Series, Old School
Stone Masonry: Vivace, Verona

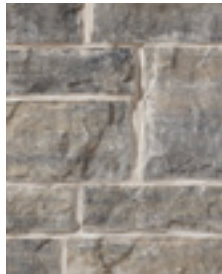

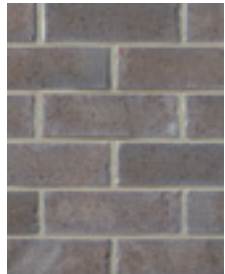

Brick: Legacy Series, Westmont
Stone Masonry: Vivace, Palermo Beige

Choosing a Palette

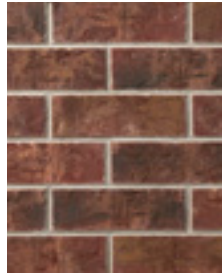

Cool Palettes

Cool palettes are typically comprised of blue, green and violet hues. However, in masonry they can be black, gray, taupe or burgundy, as it is their undertones that are cool. Mix and match our cool colours to create a modern and striking or stately and luxurious palette.

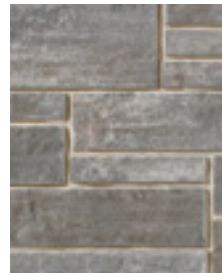

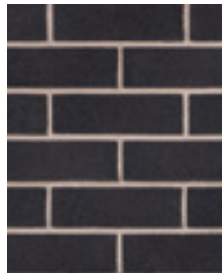

Brick: Legacy Series, Crystal Gray
Stone Masonry: Vivace, Tweed

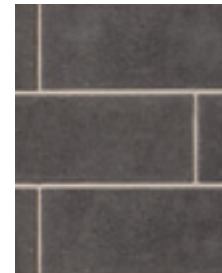

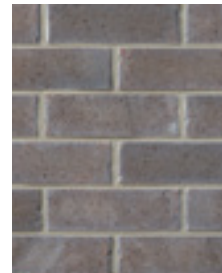

Brick: Legacy Series, Vienna
Stone Masonry: Granada, Midnight

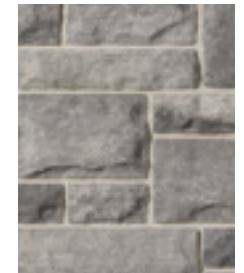

Brick: Contempo (PRP), Shadow
Stone Masonry: Artiste 2, Harbour Mist

Stone Masonry: Artiste 2, Marble Gray

Brick: Contemporary Series, Royal Gray
Stone Masonry: Contempo, Nickel

design idea!

Combine a solid-colour brick or stone in a cool tone with a blended colour material to keep your palette rich and interesting!

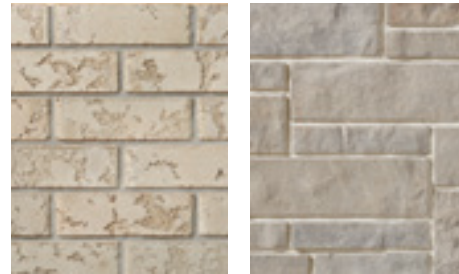

Choosing a Palette

Neutral Palettes

A mixture of warm and cool tones, these colours run the full gamut in terms of versatility. Neutrals often have a mix of tones which can help add depth and texture to your design and are well-complimented by solid-colour accents.

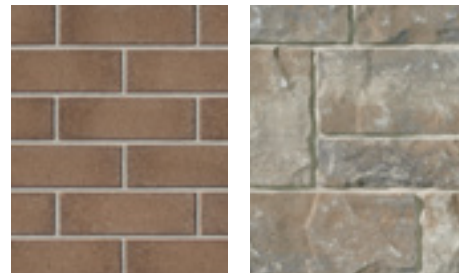

Brick: Contemporary Series, Siena Matt

Made for moments.

In a world filled with online meetings, online shopping, news, games and everything else, the time we all spend away from our screens is more important than it's ever been. Creating your outdoor retreat should be about what's important to you and how you want to spend your downtime: making moments with family and friends.

Grand Entrances

Cozy up at Home

Spending more time at home these days means creating cozy spaces for enjoying both sun and shade.

Clay Brick

Solid, functional and offering infinite flexibility in design and colour combinations, clay brick is a premier building product for today's homes. Brampton Brick's clay bricks are built to last, and actually improve with age, taking on a warmer, richer appearance as the years go by. Worry and maintenance-free, clay brick will add to the value of your home with its durability, sound proofing and fire retardant capabilities. Brampton Brick's clay bricks are your home's best friend.

Clay Brick: Crystal Gray

Contemporary Series

The Contemporary Series taps into today's trends with clean lines and less pronounced textures. Clay bricks with smooth faces and clean edges pull inspiration from elegant and stylish architecture, combining sleek looks with a full colour palette developed to coordinate with each other and with our stone veneer products.

Stone

No other building material conveys long-lasting strength, beauty and permanence quite like stone. For centuries, stone has been the only choice for creating buildings of both stature and significance. Brampton Brick's stone products have captured those elements and brought them into the 21st century by engineering products with both old world-charm and contemporary design appeal. The look of stone dramatically elevates a home's appearance and adds immeasurable value. A wide array of textures from sleek and smooth to hand-chiseled, and a colour palette developed to complement our clay and landscape product lines, allow for limitless design options for a complete home design that will command attention.

Artiste 2 stone is the next generation of our popular Artiste Stone Masonry: enhanced aesthetics like straight top and bottom edges and beautifully blended new earth tone colours help deliver cleaner lines and a more natural-looking hand-crafted stone appearance. Easier to install with even less waste than the original Artiste. Artiste 2 allows for a variety of configurations by mixing sizes, lengths and combining with other Brampton Brick clay and concrete products.

Bonneville

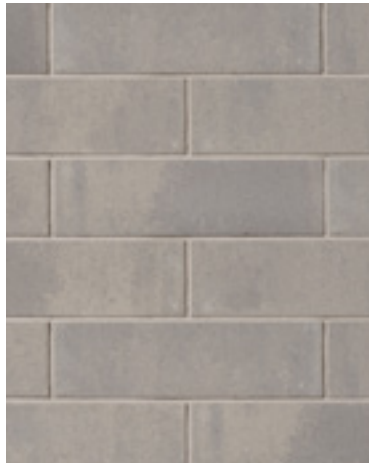

Produced with RainBloc®. See page 63 for more information.

Nueva® Collection

From inception, Bonneville was designed with versatility required to shape modern home design. Softly-blended, natural colours were specifically developed to make Bonneville the perfect complement to our well-coordinated bricks. A smooth surface, clean lines and modern proportions make Bonneville stand apart from other stones.

All colours in the sizes shown are Stock Item Products.

Architectural Masonry

As your ONE Trusted Source, Brampton Brick manufactures a full range of architectural brick, stone and block products, many of which are specifically made-to-order to suit the project or jobsite requirements. Today's manufacturing processes ensure consistent quality and strict engineering standards are met in all of our products, regardless of project scope or scale.

Clay Brick: Red Velour
Stone Masonry: Finesse 168 x 590 & Accent Sills, Canvas Beige Suave

The Architectural Series takes design to another level with a range of gorgeous, through-the-body colours, including grays, taupes, ivories and blacks. Smooth or velour textures make this series a versatile choice for a multitude of building projects. Available in sizes ranging from Modular to Utility, The Architectural Series products scale easily to suit the project, pairing well with other Brampton Brick clay and concrete products.

Stone Masonry: Finesse, Polar White, Suave

Finesse stone unites colours and textures designed to deliver the perfect aesthetic touch to any build. Explore the vast range of sizes, colours, and finishes, including smooth, suave, quartz, polished and leather. This product is 100% made to order, and is also produced with a water-repellent additive, to be used with a mortar admixture, as part of a complete water-repellent wall system.

To ensure you are happy with the colours and textures you are interested in, we strongly recommend basing your final choices on actual samples. Please contact your Sales Representative for more information.

Finesse PRP
Depth 90 mm (3 1/2")
Height 79 mm (3 1/8")
Length 257mm (10 1/8")

Return Corner Length 190 mm (7 1/2")
Face Length 390 mm (15 5/8")

FINESSE SILLS

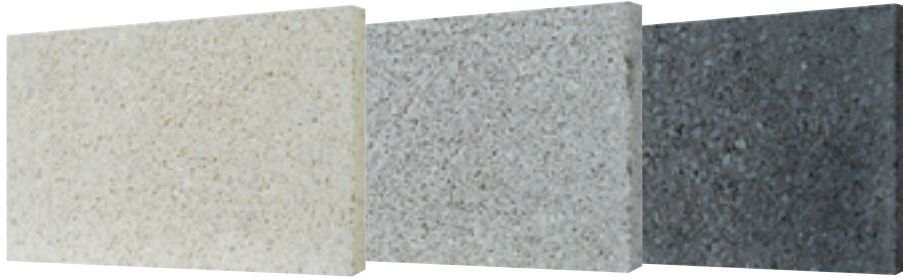

Finesse 590 Sill with Drip Edge
Depth 190 mm (7 1/2")
Height 90 mm (3 1/2")
Length 590 mm (23 1/4")

Note:

1. Concrete masonry veneer units with a length greater than 410mm (16.14") may not be defined as unit masonry by the respective standard. When considering non-standard dimensional units, structural performance of the block unit and of the masonry construction should be reviewed and verified.
2. Concrete masonry veneer units that are 90mm (3.5") or less in height and produced as a single size will require more frequent control (movement) joint spacing. Refer to the NCMA TEK 10 series on movement control.
3. To ensure proper construction, please refer to your local Building Code(s), Standards and Industry Best Practices.
4. Brampton Brick Limited is not design responsible.

Finesse Finishes

SUAVE

The surface is precisely ground to expose the aggregate and create an extra-smooth finish.

POLISHED

Even smoother than our Suave finish, the exposed aggregate is polished further to take on a more lustrous appearance.

QUARTZ

Lightly shotblast surface creates a softer, more natural look and lighter colouration.

LEATHER

A uniquely stippled finish with an undulating texture to add an elegantly decorative appearance.

RainBloc® Technology

Concrete masonry walls produced with the RainBloc® integral water repellent resist wind-driven rain while still maintaining vapor transmission, reducing the chance of mold, mildew, and musty smells from developing inside a building.

When used as an integral ingredient in our concrete masonry products, RainBloc® provides protection throughout the masonry unit to protect concrete masonry walls from moisture penetration.

To ensure your masonry wall system is completely water repellent you must remember to include the RainBloc® additive to the masonry mortar on site.

Specify RainBloc® Water Repellent System when designing with Bonneville, Contempo, Finesse, Origin Series or Profile Series.

Origin Series

Note: Minimum orders apply. Check with a Brampton Brick Sales Representative for product availability and lead times prior to specifying. For additional information, please visit our website at BramptonBrick.com

Brampton Brick's Origin Series block offers resourceful solutions for industrial, commercial, and institutional building projects. Units are available in plain or split texture, and can be made with the option of Rainbloc® water repellent additive as part of a water repellent masonry wall system. (See page 63 for more information). Select from 2 to 6-rib styles, split ledge, and split-face corner styles in a wide array of depths to suit your project specifications.

10cm Ashlar, Split

(11 1/2" x 7 1/2" x 15 1/2")

90 mm x 190 mm x 190 mm x 390 mm
(3 1/2" x 7 1/2" x 7 1/2" x 15 3/8")

Note:

1. Concrete masonry veneer units with a length greater than 410mm (16.14") may not be defined as unit masonry by the respective standard. When considering non-standard dimensional units, structural performance of the block unit and of the masonry construction should be reviewed and verified.
2. Concrete masonry veneer units that are 90mm (3.5") or less in height and produced as a single size will require more frequent control (movement) joint spacing. Refer to the NCMA TEK 10 series on movement control.
3. To ensure proper construction, please refer to your local Building Code(s), Standards and Industry Best Practices.
4. Brampton Brick Limited is not design responsible.

Block: Profile Series, Academy Black, Suave

The aesthetic appeal and compressive strength of the Profile Series make it a favourite for industrial, commercial, and institutional projects. You can rely on the compressive strength of concrete block units, perfect for load-bearing or veneer masonry walls. This product is 100% made-to-order, and is also produced with a water-repellent additive, to be used with a mortar admixture as part of a complete water-repellent wall system.

To ensure you are happy with the colours and textures you are interested in, we strongly recommend basing your final choices on actual samples. Please contact your Sales Representative for more information.

Architectural *Masonry Products*

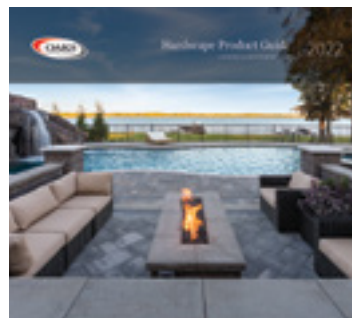

Brampton Brick Masonry products have gained the reputation of innovation and versatility in the industrial, commercial and institutional (ICI) market. Our commitment to being supplier of choice drives the development and manufacturing of a wide variety of ICI products to meet all your structural and aesthetic design requirements.
